EXPERIENCE

Product Design & Prototyping | LionsBot International

Jan 2026 - Apr 2026

- Collaborated with other students to develop a device prototype to improve bed-tucking efficiency for hotel housekeepers as a school project for the client
- Designed, 3D modelled and animated the product concept
- Programmed Arduino Uno for control logic and user input handling
- Assisted with integration of electronic components with the mechanical design

3D Artist Intern | Viziofly

Jun 2023 - Feb 2024

- Self-taught Blender to 3D model and texture low-poly game assets
- Input C# scripts necessary for game assets and fixing minor bugs
- Worked (Modelled, Textured, Animated, Scripted) on projects for clients such as:
 - CNA - Remembering Me
 - RSAF 55 - Open House 2023

Artist | Temasek Polytechnic (School of Engineering)

Apr 2023 - Jun 2023

- Collaborated with other students to develop an engineering simulator for the students
- Created low-fidelity and high-fidelity prototypes to demonstrate game ideas to the client
- Modelled and textured assets, and designed UI for the simulation

2D Artist | Ascott Group: LYF One-North

Oct 2022 - Feb 2023

- Collaborated with other students to develop an AR gamified filter as a school project for the client
- Created low-fidelity and high-fidelity prototypes to demonstrate game ideas to the client
- Designed and created assets and UI for the AR gamified filter
